New Control Panel Launched On S390L/S390H
Easier Installation & Quicker Capture
Our compact control panel with built-in power supply makes it much easier to install the slit lamp especially when installing the slit lamp on an ophthalmic unit. The users do not need to find place to install the chunky power box.

Quick Capture Button

There is a quick button on the control panel that enables doctors to shoot photos conveniently. Once they observe the suitable photo to describe pathology, just press the capture button and the photo will be recorded.

Less Cables with Extra USB port

When applying the new control panel, there will be less cables exposed outside. Extra USB port is provided to charge other medical device.
